Did you miss the February General Meeting? If so you missed the presentation by JoDee Sands on Canine CPR & First Aid

I have included some information that she discussed. On the CPR instructions I have covered up the info on giving the dog breaths, as that is no longer a protocol in CPR for humans or animals.

Saving your pet with CPR

With pets increasingly being treated like a member of the family, many owners are learning emergency techniques like CPR to keep their pet alive before bringing it to a veterinarian.

If there is no breathing and no pulse, begin CPR immediately.

Areas to check for pulse

Check for breathing and pulse

Check pulse using middle and index finger below the wrist, inner thigh (femoral artery), below the ankle or where left elbow touches the chest.

Look for other warning signs

- Gums and lips will appear gray-colored.
- Pupils will be dilated and not responsive to light.

Gums

Pupils

If not breathing, give rescue breaths. Place your mouth over its nose to blow.

Heimlich maneuver

If breath won't go in, airway may be blocked. Turn dog upside down, with its back against your chest. Wrap your arms around the dog and clasp your hands together just below its rib cage (since you're holding the dog upside down, it's above the rib cage, in the abdomen). Using both arms, give five sharp thrusts to the abdomen. Then check its mouth or airway for the object. If you see it, remove it and give two more rescue breaths.

Start compressions if no pulse

Lay animal on right side and place hand over ribs where its elbow touches the chest. Begin compressions. Do not give compressions if dog has pulse.

Repeat procedure

- Check pulse after 1 minute and then every few minutes.

- Continue giving CPR until the animal has a pulse and is breathing.

- Stop CPR after 20 minutes.

Animal size	Compress chest	Compressions per breath of air
Cat/small dog (Under 30 lbs.)	1/2-1 inch	5
Medium-large dog (30-90 lbs.)	1-3 inches	5
Giant dog (over 90 lbs.)	1-3 inches	10

Heimlich Maneuver for Dogs

I have saved a pdf of How to Give first Aid to Your Dog that I will attach to the email with your newsletter. Some good information for any animal owner to have on hand.

"And then I just hit delete. I haven't actually eaten any homework for years."

From Jann Redding: Aria achieved her RATCH X 2 So she is now Sqwire Garcia Aria Da Capo VCD1 RI CAA BCAT RATCHX2 CGC TKA. She is a very versatile dog and very willing to do everything with a smile. Photo by April Bruce

From Sheryl Hohle: Perp made the "Bad Dog Agility Power 10" 16" preferred list - it's a scoring system that looks at overall speed in agility dogs. She was #10 on the Vizsla list, which certainly isn't the top, but it was a nice surprise. She also recently earned her Master Jumpers with Weaves Preferred title - her first preferred title, as I only recently moved her down. Photo by Randy Gaines

From Brenda Santistevan: Ivy did it! Two more qualifying scores for her UKC Novice Rally Title. Her scores got higher every time and she earned two more toys. A big thanks to Deborah Nendell and Jessica Dawn Buhlman, rally class teachers extraordinaire! We couldn't have done it without you. When I first rescued Ivy, she was afraid to even go on a walk!
