## THE TRAINING EDITION

### FOLLOW YOUR NOSE TO TRACKING CLASS

Like the outdoors? Your dog is always using their nose? Then Tracking is right where you belong. Earning a Tracking title is a lot of fun for both you and your dog. Tracking is a concentrated sport that involves time, commitment, dedication, and patience. Many people think that all the dog has to do is put their nose down to the ground and follow a scent. There is much more training involved and as more training develops, more time is needed. The feeling of you and the dog arriving at the “glove” at the end of the track is one of the best feelings you’ll ever experience.

What is tracking? The Tracking Test is to demonstrate the dog’s ability to recognize and follow human scent; a skill that is useful in the service of mankind. Tracking by its nature is a vigorous, noncompetitive outdoor sport. Tracking Tests should demonstrate the willingness and enjoyment of the dog in its work and should always represent the best in sportsmanship and camaraderie by the people involved.” (Quoted from AKC Tracking Regulations.)

Ready to get on track with tracking? **Classes start with Dan Wheeler in November on Saturdays in the Tooele area.** These classes will get you and your dog ready for our May 12, 2024, trial. Sign up for classes will be November 25<sup>th</sup> at 2:00. For active members with their current Semi-Annual form filled out there is no cost for non-members classes will cost \$100 for the first dog and \$90 for the second dog. Class will go until May.

On the first day of class will meet in the North Parking lot of the U of U Stansbury Park Medical Center. The address is 220 Millpond Dr # 100, Stansbury Park, UT 84074, from here we will go to the tracking location.

Items to bring to class:

- Dog
- Harness
- 30–40-foot lead

- Flags 16"-2 ft.
- Bait (High reward)

#### Some Things You Should Know Before You Start:

- The scent trail is there, they become aware of it, and instinct urges them to follow it.
- You must generate whatever level of enthusiasm the dog requires; then you may draw on his wholly natural wish to please you.
- Tracking is a pass or fail situation—not a placement competition. It gives you a chance to learn from your dog.
- A dog's scent is 40-50% better than a human's. Any dog has the potential to track.
- Your dog does not have to know obedience for tracking. If you do want to use obedience, the only commands you will probably use are sit, down, stay, leave it, and retrieve. Retrieve is not necessary for training tracking.

#### Some of the Dangers Involved in Tracking:

- The field can be dangerous. Fields are the dumping grounds of unwanted items, i.e. cans, broken bottles, bottle caps, garbage, etc.
- There are the dangers of terrain: holes in the ground, small mole hills, underground springs, grass that can cause problems for the dogs, i.e. foxtails and burrs.
- There are livestock in the area.
- Active ATV riders may be close.
- If your dog is out of shape, take it slow and gradually increase his training. If you don't your dog could end up ill.

#### EQUIPMENT FOR TRACKING

##### Tracking equipment to get you started:

- Non-restrictive tracking harness to fit your dog made of leather or nylon.
- Flags to mark tracks (flags can be made of wood, PVC pipe, or wire—check with sprinkler system supply stores).
- Turn stakes (or in a bushy area toilet paper, colored clothes pins, and surveyor's colored tape can be used).
- Tracking lead 30-40 feet long.
- Gloves or wallets for the dog to track (preferably leather). You can use your dog's favorite toy(s) to track with also.
- Beginning articles (scarf, sock, eyeglass case, small piece of clothing, anything of a personal nature).
- Gloves for yourself to keep your hands from rope burn (yes, some dogs can be very fast).
- Clipboard, paper, and pencils for mapping trails.
- Food and/or toy rewards.
- Water for your dog and you (a small bottle to carry the water in while out on the track).
- Tracklayer
- Field
- Dog

- Your full concentration.
- Emergency kit for you and your dog.

Optional equipment:

- Fanny Pack
- Vaseline (for tracking in the snow) to put on your dog's pads.
- Compass
- GPS
- Wind Gauge
- Thermometer

There are three levels of tracking:

- Tracking Dog (TD) and Tracking Dog Urban (TDU)
- Tracking Dog Excellent (TDX)
- Variable Surface Tracking (VST)

Things to Start Training for Tracking:

- Play hide-the-glove with your dog at home. Start out making it easy for the dog by hiding the glove and helping your dog find it (it would be useful to use a buckle collar on your dog at this point). As soon as the dog finds the glove, reward the dog with lots of praise and/or a food reward. Gradually increase the intensity of hiding the glove. Start hiding the glove first in front of furniture, making it easy for the dog to find.
- When it becomes really easy for the dog to find the glove, make it harder. Hide the glove behind furniture (even try hiding the glove up at a higher level—maybe on the arm of a chair or back of a couch). This is when the dog begins to use their nose.
- You can increase the dog's training at this time by playing hide-the-glove outside. Hide the glove behind bushes and trees (even try hiding the glove inside bushes). When you start the game outside, put a leash on the dog (go ahead and put the dog's harness on and attach the lead to the harness) and go with the dog to find the glove.
- Use words at home when you play hide-the-glove that you would use training to track. For example, let's track, find it, sniff, where's the glove, go find, track, smell, etc.
- Read the AKC Regulations for Tracking—very important! Regulations can be ordered from the AKC website at [www.akc.org](http://www.akc.org).

**Hope to see you on the track line!**

\*Note—here are more details on the progression of the titles and what to expect on the track line.

There are three levels of tracking:

Tracking Dog (TD) and Tracking/Dog Urban (TDU)

Tracking Dog Excellent (TDX)

Variable Surface Tracking (VST).

Once your dog has a TD and/or TDU, your dog can advance for a TDX and/or VST. If your dog accomplishes all three titles, they become a CT (Champion Tracker). AKC introduced the TDU and VST because of areas being lost for TD and TDX. TDU and VST are done in an urban setting, i.e. around university campuses.

Some of the variables of the Tracking Dog (TD) title are: a track that is laid by a tracklayer between 440 and 500 yards that must consist of three to five turns and aged a minimum of 1/2 hour and a maximum of two hours. The tracklayer leaves a start article and drops a leather glove or leather wallet at the end of the track for the dog to find. For your dog to enter a TD test, they must be certified by a judge that they are ready to pass the variables. It is kind of like having to get two legs (or passing twice) for a TD title.

Once you get the TD title on your dog, you can move directly to TDX and/or VST; no certifications are needed.

Some of the variables of the Tracking Dog Urban (TDU) title are a track that is laid by a tracklayer between 400 and 500 yards that must consist of three to five turns and aged a minimum of 1/2 hour and a maximum of two hours. The track will have a minimum of two different surfaces, vegetated and non-vegetated. The tracklayer leaves a start article, drops an intermediate article, and drops a leather glove or leather wallet at the end of the track for the dog to find. For your dog to enter a TDU test, they must be certified by a judge that they are ready to pass the variables. It is kind of like having to get two legs (or passing twice) for a TDU title. Once you get the TDU title on your dog, you can move directly to TDX and/or VST; no certifications are needed.

## SCENT CLASSES

**What is scent work?** Per the AKC, "the sport of Scent Work is based on the work of professional detection dogs (such as drug dogs), employed by humans to detect a wide variety of scents and substances. In AKC Scent Work, dogs search for cotton swabs saturated with the essential oils of Birch, Anise, Clove, and Cypress. The cotton swabs are hidden out of sight in a pre-determined search area, and the dog has to find them. Teamwork is necessary: when the dog finds the scent, he has to communicate the find to the handler, who calls it out to the judge." (<https://www.akc.org/sports/akc-scent-work/>)

**Who can do scent work?** Any dog! All dogs love to use their nose to sniff. You do not have to want to compete in AKC Scent Work or any other venue to enjoy this sport.

**Why learn scent work?** Scent builds confidence in all dogs; it is a great mental and physical activity for dogs of all breeds and ages. Most importantly it is fun for both you and your dog.

**Scent Work Beginning Class:** We focus on teaching your dog the concept of odor obedience with the use of games and short fun exercises. Each week we go over a concept and discuss it while we slowly increase the complexity of the games and exercises, while incorporating our topics of discussions. We will help you to understand your dog's change of behavior when in scent and help you as a handler create good handling skills. The beginning class is for anyone that wants to learn the sport of scent work. This is a beginning class for those new to the sport, but we'll happily take an advanced student that wants to get back to the basics and build a strong foundation.

**Scent Work Advanced Class:** This class is intended for dogs that are already on scent and want more experience with a variation of hides and further develop your skills in preparation for competition, including setting hides for the class.

### EQUIPMENT LIST

Flat / Martingale collar or a harness

6ft to 15ft leash

Lots of dog treats

Or if your dog is more toy motivated, a favorite toy.

Water or a water bowl

## GET YOUR TRICK ON

Who hasn't watched a dog on TV growing up and thought how they teach the dog to do that. The answer is **TRICKS!** As a club we have done a little luring training for our members. We have had a Trick of The Month in our Newsletter in the past issues, so our members could train at home. In September we had Austin and Otis demo and talked about Trick Class to get everyone excited to come to class. Now the last lure **TRICK CLASS!** Classes start in **January on Wednesday nights.** Austin and Otis will be the instructors for class.

The focus of the Trick Dog Class is to help build our relationships with our dogs, build their confidence, and earn Trick Dog Titles. **But most importantly have fun!**

AKC has 5 Trick Titles you and your dog can work for:

- **Novice Trick Dog (TKN)**-The dog performs 10 skills from the Novice list. If a dog has a Canine Good Citizen (CGC) certificate or title on record at AKC, it can do 5 Novice tricks (CGC + 5) to earn the Novice title.
- **Intermediate Trick Dog (TKI)**-The dog must have the Novice title, plus perform 10 Intermediate tricks.
- **Advanced Trick Dog (TKA)**-The dog must have the Intermediate title, plus perform 10 tricks from the Advanced list.
- **Trick Dog Performer (TKP)**-In this title, handlers perform a short routine with at least 10 tricks previously learned.
- **Trick Dog Elite Performer (TKE)**-Testing of this truly elite trick dog level requires the dog to perform 10 tricks with at least 5 props and there must be a story.

You can review all the tricks checklist on the AKC Website. Class titles can be performed in class by Misty Porter. Then your application can be processed on the AKC website for your title.

Get ready to  
be amazed at what  
you and your dog  
can accomplish by  
having some trick  
fun!
